EXAMINER'S AMENDMENT

New replacement sheet of drawing is required:

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because sheet 16 of 23 the figure label is cut off. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

The following is an examiner's statement of reasons for allowance:

Claims 1, 3, 5-6, 13-15, 17-18, 27-28, 31-34 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in etching the wiring using an atmospheric-pressure plasma device having a linear plasma generator using the resist mask as a mask by generating plasma between a first electrode of the linear plasma generator and a second electrode surrounding the first electrode of the linear plasma generator, wherein at least the first electrode has a sheet-like shape or wherein the solution ejector has three ejection ports forming a triangle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
